The Centre of Excellence at the Faculty of Economics of the University of Montenegro will ensure synergy among academics in Montenegro but also with professors from EU-based universities (via TEPSA), in relation to both teaching and research.

By the interaction of local and EU-based professors in every proposed course throughout the project, this will result in raising both the attractiveness and excellence of our courses on EU topics, as well as increasing the internationalization of teaching and research, and thus bring innovation and knowledge transfer to the current courses.
